

# RADIOLOGICAL DOCUMENTS

October 2015

Dear colleague,

Dear reader of Radiological Documents,

## “ RD goes digital “

In analogy with many other Radiological Journals (i.e. Radiology, Radiographics, JBSR (previously JBR-BTR, ... ), the boards of Radiological Documents, together with Guerbet, sponsor of Radiological Documents, have decided to publish Radiological Documents **EXCLUSIVELY** in a **DIGITAL FORM** at the website **[www.radiologicaldocuments.org](http://www.radiologicaldocuments.org)**.

The RD-website is already freely accessible for all interested readers, and contains the cases published in Radiological Documents since several years.

This means that, as from 2015 Issue 1 on, the paper form (printed and sent to the radiologists) will no longer exist and be replaced by the digital form.

Going DIGITAL will mean no more printing and no more paper and thus contribute very positively to minimize the environmental impact of this service. Additionally it will also allow expanding the reach of RD to more radiologists in many other countries - theoretically worldwide!

Each issue will contain 5 cases with a publication frequency of 5 issues a year that will be placed on **[www.radiologicaldocuments.org](http://www.radiologicaldocuments.org)**.

In order to inform you about the publication of new cases, it is our intention to send you individually an announcement of the publication of a new issue at the website. To do so, it is necessary to have a mailing list at our disposal, containing the e-mail addresses of all interested radiologists.

**Therefore, we hereby kindly ask you to confirm your interest in the announcement of a new issue of Radiological Documents, simply by sending an e-mail, informing us of your agreement to receive on your e-mail address, the announcement of publication of new issues of Radiological Documents (RD) at the website of RD ([www.radiologicaldocuments.org](http://www.radiologicaldocuments.org)).**

**E-mail (with your correct name and e-mail address) to be sent before 31/12/2015 to :**

- **for Guerbet Belgium and Grand-Duchy of Luxemburg : [rita.six@guerbet-group.com](mailto:rita.six@guerbet-group.com)**
- **for Guerbet Switzerland : [isabella.ulrich@guerbet-group.com](mailto:isabella.ulrich@guerbet-group.com)**
- **for Guerbet The Netherlands : [simone.van-woerkum@guerbet-group.com](mailto:simone.van-woerkum@guerbet-group.com)**

On behalf of Radiological Documents, we hereby express our gratitude for your interest in Radiological Documents.

Kind regards.

Hendrik Degryse, MD, MSc, editor,  
Johan Van Goethem, MD, PhD and Pieter van Dyck, MD, PhD, co-editors,  
Paul M. Parizel, MD, PhD, Vincent Dagommer (Guerbet Company) and J. Karel Quellhorst (Guerbet Company), Advisory Board of Radiological Documents.
